

create\_command\_arguments

```
graph LR; A[create_command_arguments] --> B[ft_calloc]; B --> C[ft_memset];
```

A flowchart illustrating a sequence of three functions. The first function, 'create\_command\_arguments', is highlighted with a gray background. It is connected by a blue arrow to the second function, 'ft\_calloc', which has a white background. This is followed by another blue arrow connecting 'ft\_calloc' to the third function, 'ft\_memset', also with a white background. All three functions are enclosed in rectangular boxes with black borders.

ft\_calloc

ft\_memset
